3 January 2025

Through Principal

Dear P2 to P6 Parents and Guardians,

### Use of ICT for Learning

#### Singapore Learning Space (SLS)

1. As part of Ministry of Education's (MOE) commitment to nurture future-ready learners, an online learning platform known as the Singapore Student Learning Space (SLS) is made available to all students.
2. Since P1, your child has login to SLS to access learning materials, assignments, and collaborative spaces for projects to complement classroom learning.
3. As your child continues to use SLS for blended learning, we have guided/will be guiding your child to set up security questions and answers to enable self-service password reset.
4. You are also encouraged to enter your email address\* in the "Edit Profile" page for easy self-resetting of password in future. If your child has forgotten his/her SLS password, a password reset link will be sent to this email address. [*\*Note: For P4-P6 students who are more mature in managing their ICT accounts, you may use your child's Student iCON email address instead.*]
5. For technical assistance, you may contact the School-based Helpdesk at [azzilawaty\\_abdullah@moe.edu.sg](mailto:azzilawaty_abdullah@moe.edu.sg) or Tel: 6583 2125 during office hours.

#### MOE Identity Management System (MIMS) Account

6. Your child has also been provided with his/her MIMS ID and password for access to the school computer. The ID and password also allow your child to access his/her Student iCON account which is a suite of Google apps that helps to support his/her learning and collaboration with others, as well as Microsoft 365 (MS 365) Apps. Student iCON and MS 365 can be accessed from <https://workspace.google.com/dashboard> and <https://www.office.com/> respectively.
7. Similar to the SLS, we will be guiding your child to access the school computer and setup the security questions and answers to enable self-service password reset.
8. To help your child better manage his/her ICT account login details, we have provisioned a page in the Student Handbook for him/her to record and refer to the login information, if needed.

Safe and Responsible Use of ICT

9. While we harness technology to deepen learning, we also encourage our students to develop and maintain good Cyber Wellness (CW) habits. To complement CW lessons in schools, parents could seek to stay in touch with what is happening in our children's cyber world and understand their motivations for their interests and activities in the cyber space.
10. To support you in helping your child/ward on the appropriate use of the internet, you may refer to the tips below to help you reinforce CW education at home. We hope to partner you as we nurture your child/ward to be a responsible digital learner.

Cyber Wellness Resources in the School's Website  
(<https://go.gov.sg/mpscw>)

11. We have also designed a Cyber Wellness Pledge which we included it in the Student Handbook. The Pledge aims to motivate our students to cultivate good and healthy habits online. Parents are encouraged to support your child in his/her use of the internet.
12. Should you have any queries on ICT matters, please email me at [lee\\_huan\\_leng@moe.edu.sg](mailto:lee_huan_leng@moe.edu.sg) or call Tel: 6583 2125 Ext. 159 during office hours.
13. We look forward to your continued support in your child's/ward's education.

Thank you.

*Huan Leng*
